SKILLS

Ruby on Rails   React
Redux Java JavaScript
HTML CSS   Git Rspec
Matlab   SQL

EDUCATION

App Academy

Software Engineering

August 2017

- 1000 hours of programming experience
- Highly selective program accepts <3% of applicants

Illinois Institute of Technology

B.S Mechanical Engineering

May 2015

- Highlighted Courses: Java 1 & 2, Computer Science for Engineers

PROJECTS

MathPath, Live | Git — *Ruby on Rails, React.js, & Redux.js*
Math practice problems learning app

- Implemented React components to dynamically display content and manage dynamic front end data with Redux
- Utilized PostgreSQL relational database to manage user, curriculum, and progress data

StreakLog, Live | Git — *Ruby on Rails, React.js, & Redux.js*
Personal accountability logger

- Created custom associations and managed model dependency
- Localized time zones per individual users

Shelffaux, Live | Git — *JavaScript, HTML*
Interactive 3D bookshelf

- Created custom interactive 3d animation for viewing books in dynamic perspective using JavaScript & HTML canvas
- Developed an algorithm to resample images and transform the image into perspective

EXPERIENCE

City Year — *Americorps Volunteer*

July 2015 - June 2016

- Mentored at risk students, taught four daily Algebra support lessons, and lead community garden beautification project

Illinois Tech — *Resident Advisor*

August 2013 - May 2015

- Initiated the partnership between the ongoing Human Library Chicago, and led the student team running the founding event

Illinois Tech — *Computer Science Teaching Assistant*
